
Move-in/Move-out

At the Huntington Convention Center of Cleveland and Global Center for Health Innovation, we provide a seamless move-in/move-out process in order to ensure your event is a success!

We provide a designated POV area where exhibitors and show management can load and unload their materials from their vehicles with ease.

Below are the following Huntington Convention Center guidelines:

- The vehicle or trailer storage/cargo area is no longer than 12' in length.
- The use of motorized material handling equipment is prohibited. Handy carrying items and the use of two and four wheel dollies are permitted.
- As a courtesy to fellow exhibitors, the Huntington Convention Center will permit up to 20 minutes for unloading within the designated POV area. Requests for additional time must be authorized by the Event Manager.
- Vehicles to be loaded/unloaded should remain in the loading dock and should not be driven onto the exhibit floor unless prior approval has been given through the Event Manager
 - If show management and/or exhibitors require assistance of the use of dock height loading/unloading, this work should be performed by the General Service Contractor's personnel.
- Third party vendors will be allowed to perform their own loading/unloading from the designated POV area without the use of motorized lift equipment or motorized material handling equipment.
